

re environment -
has to be done -
but is not worth a damn
* have uneasy feeling -
* we're doing too much.
* knows it's not a good political issue
* only a good defensive issue
* we're catering to the left in all of this
* don't play up idea of destroying system

Haldeman Notes Phone Call with President, Feb. 9, 1971

① shld take on environment - it's not sacred cow
our whole line is responsibility - hard to sell
ultimately it is freedom (from big govt)

Haldeman Personal Notes, Meeting w/ President (6/27/71)

re examine all pollution bills
in terms of current economic effect
put brakes on when we can -
we're getting caught
economics more important than cutting through
dead face of jobs vs. seat-belts
